1 Student

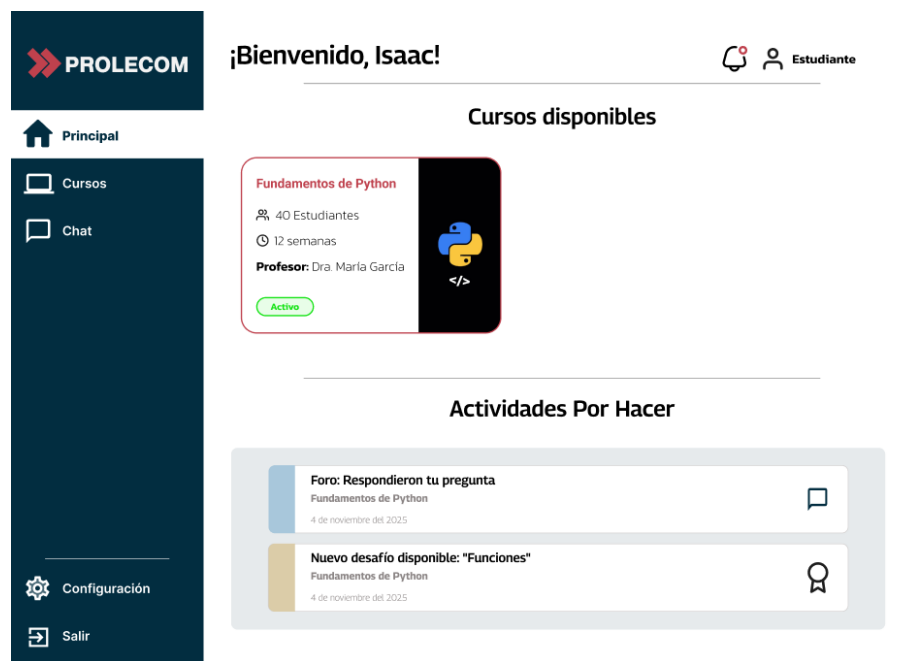

Figure 1: Main Student Dashboard showing overall progress and quick access to enrolled courses.

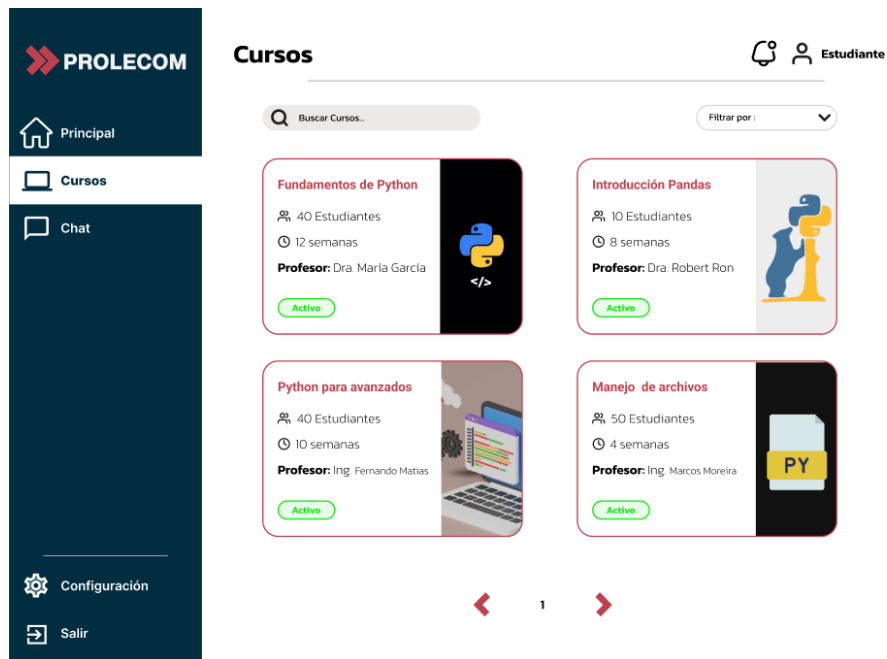

Figure 2: Available Courses View demonstrating the catalog and navigation for new enrollment.

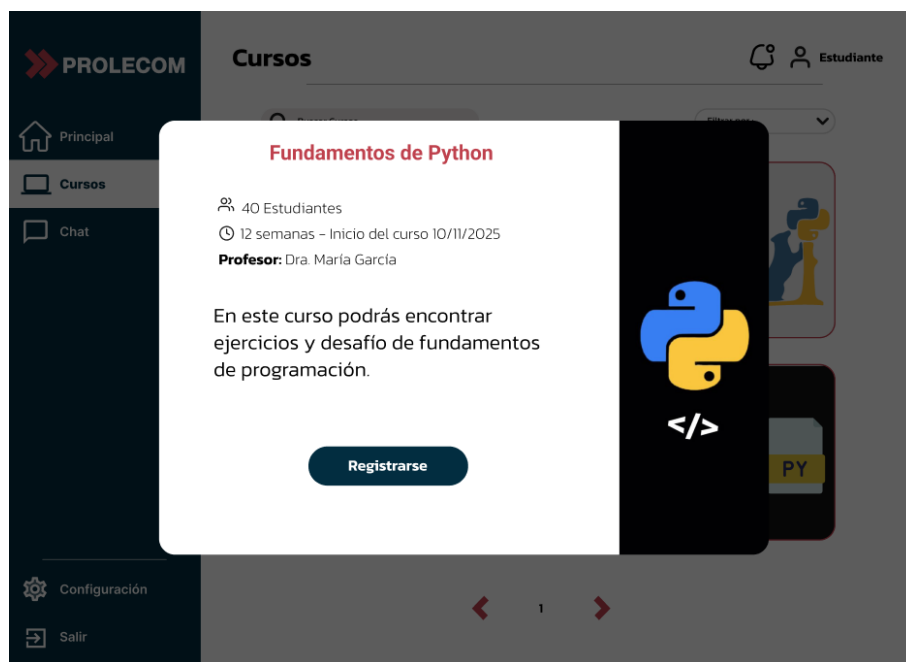

Figure 3: Course Enrollment Confirmation interface detailing the action of joining a course.

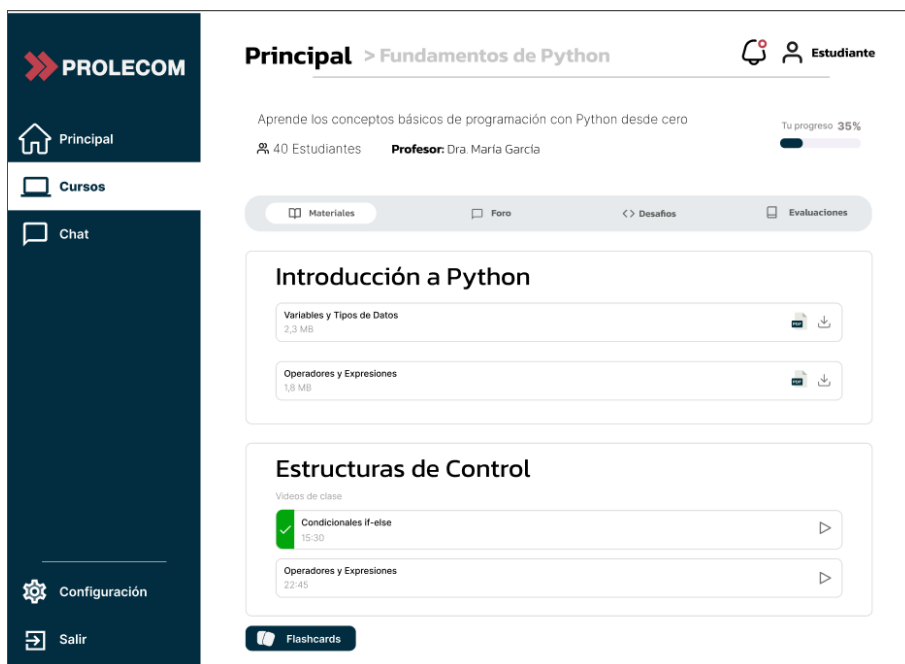

Figure 4: Specific Course Dashboard displaying structured topics, progress map, and main course modules (Q&A, Challenges).

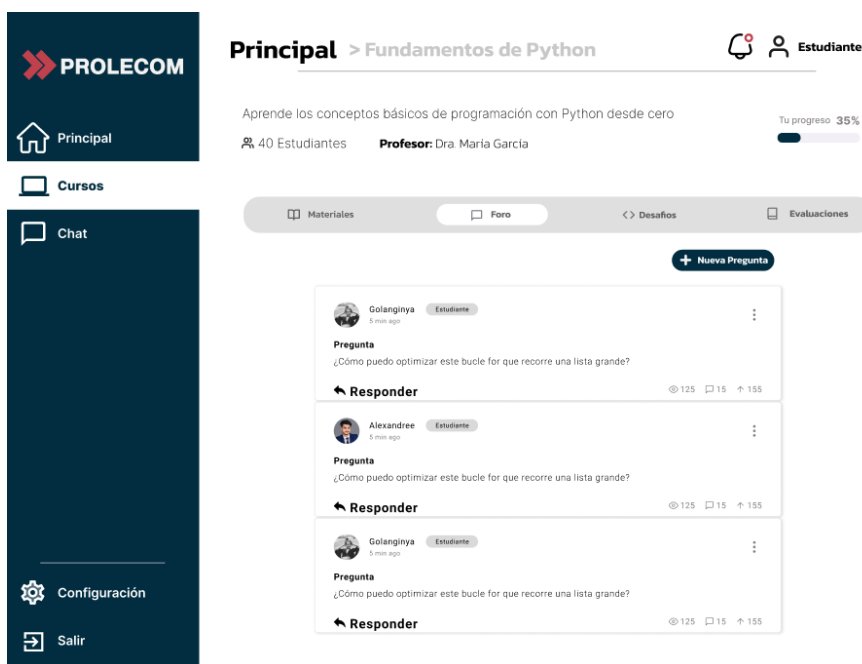

Figure 5: Course Q&A Forum View showing a list of current questions and categorization tags.

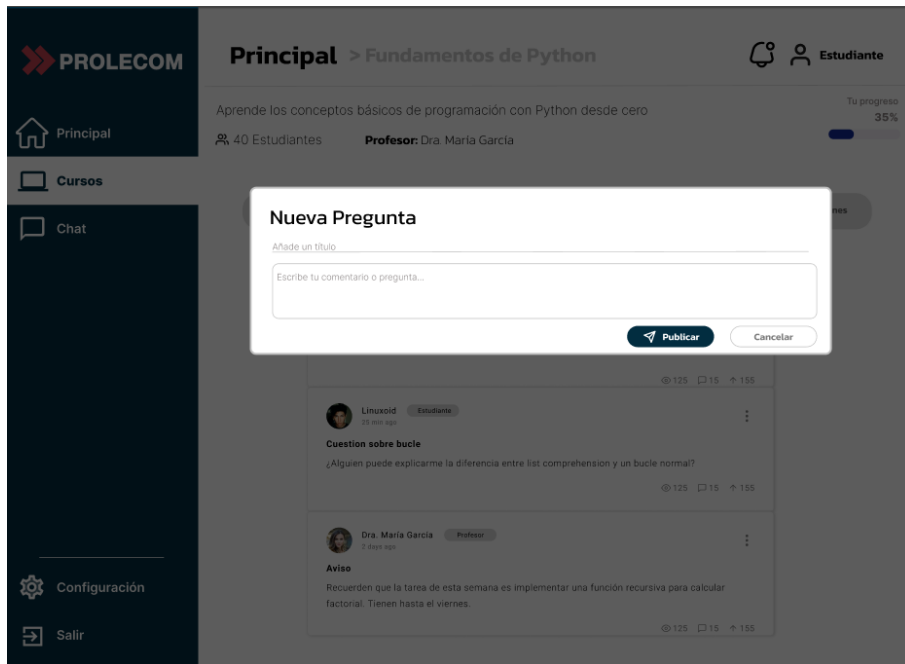

Figure 6: Post a New Question Interface detailing the necessary fields for student input (Title, Description, Tags).

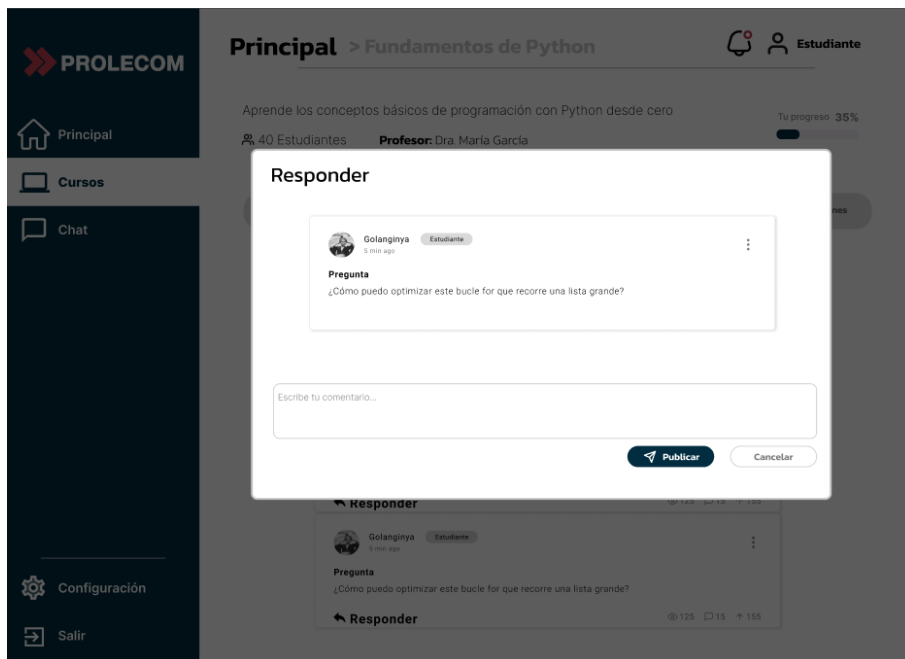

Figure 7: Replying to a Question illustrating the text editor and comment submission interface.

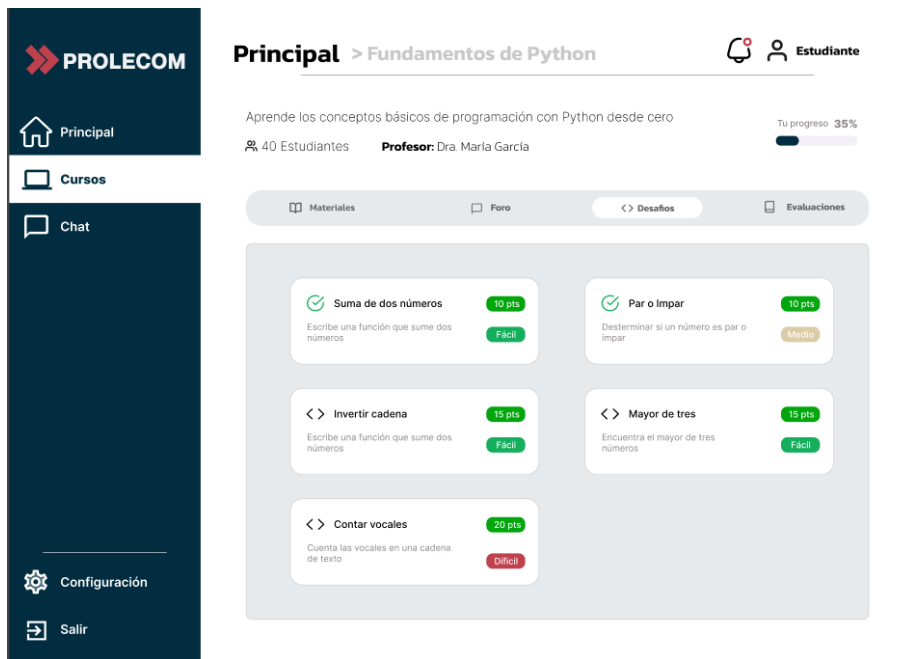

Figure 8: Programming Challenges Repository view, showing exercises organized by Difficulty Categories (e.g., Easy, Medium, Hard).

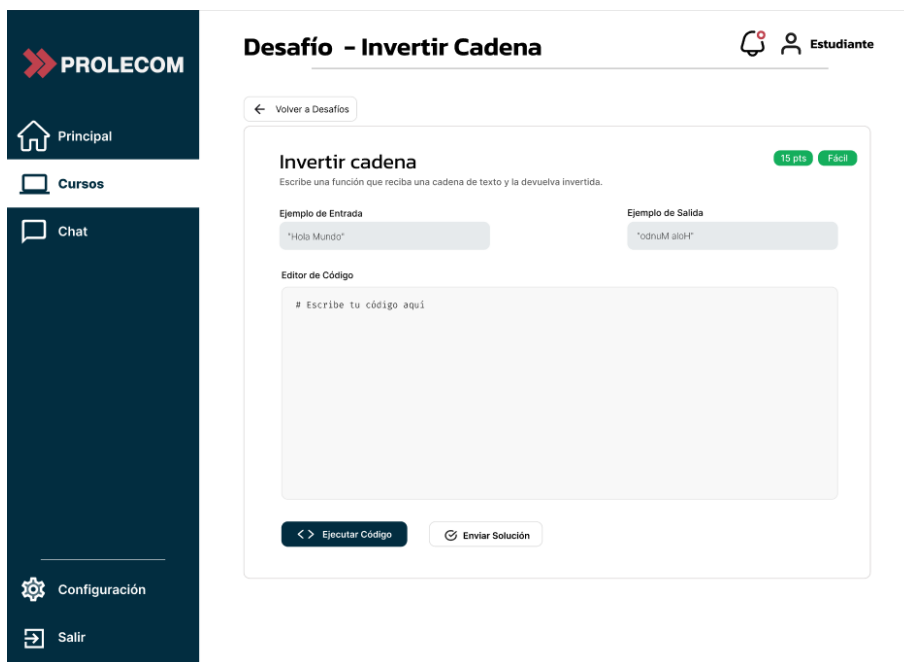

Figure 9: Visual IDE Challenge Interface illustrating the problem statement, code editor area, and solution submission button (Visual IDE, no execution functionality)².

2 Professor

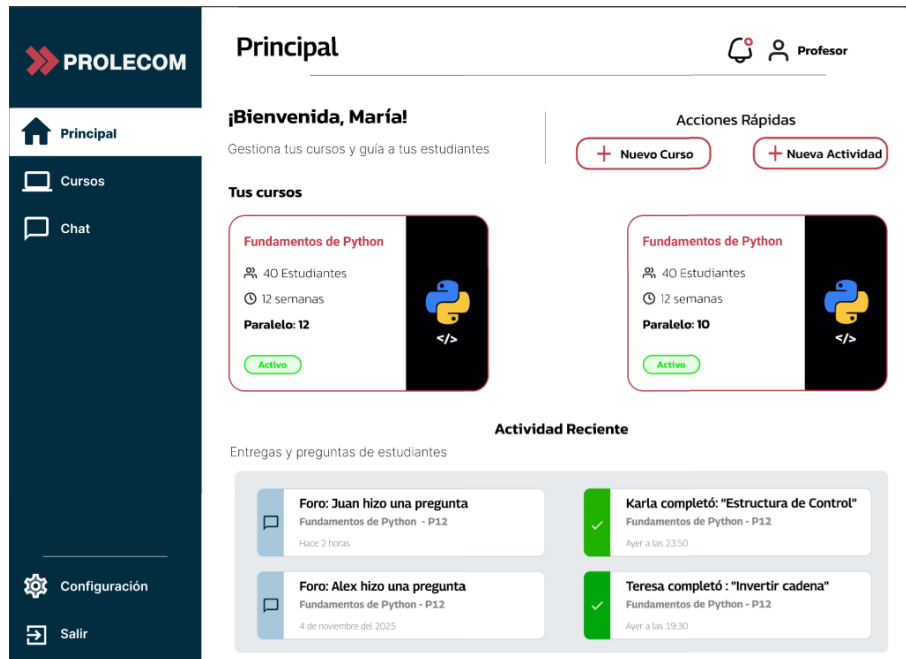

Figure 10: Main Professor Dashboard showing active courses, student monitoring tools, and quick access to management panels.

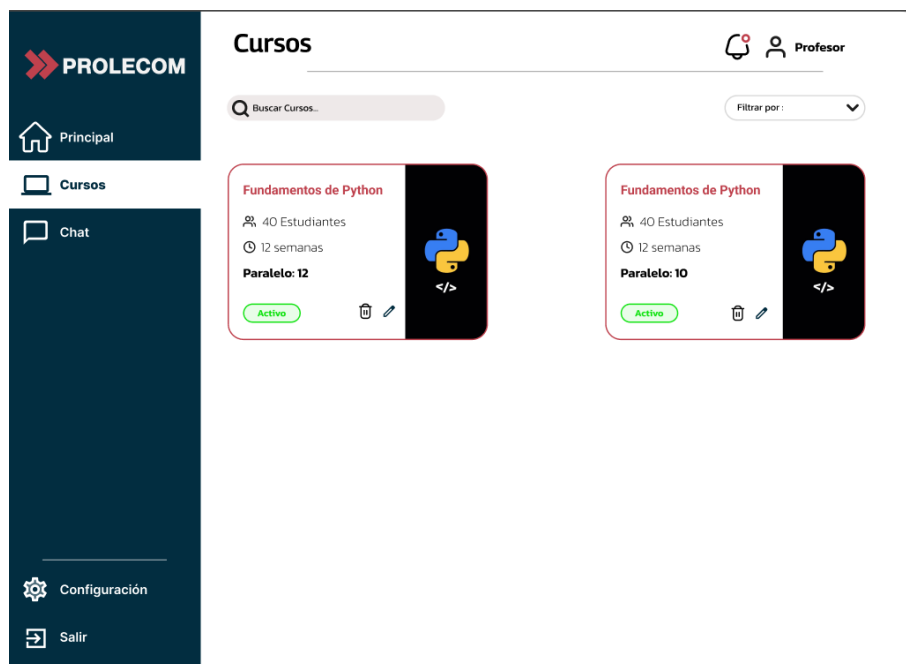

Figure 11: Active Courses View displaying courses managed by the professor, with options to access and edit each one.

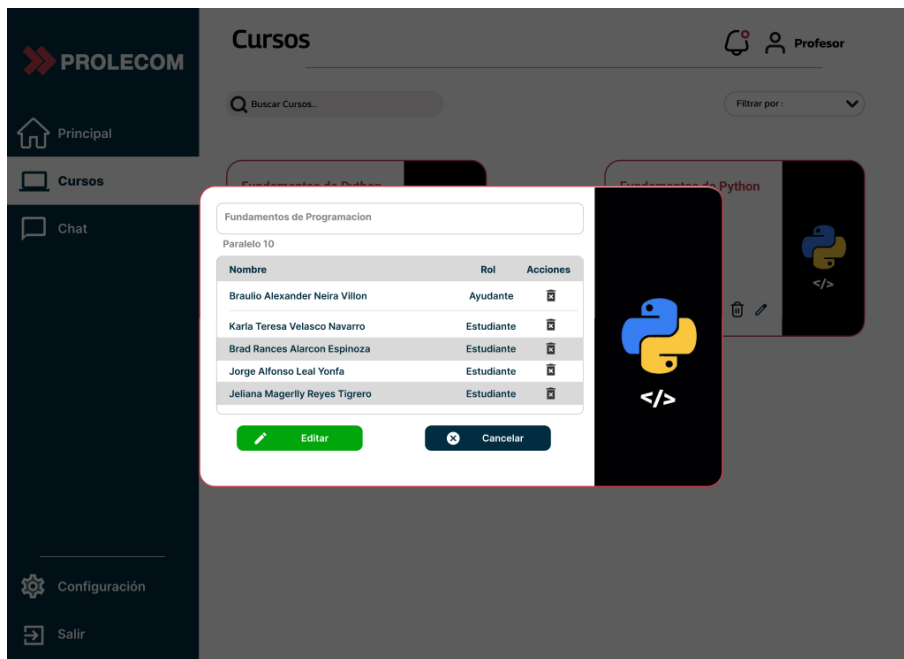

Figure 12: Course Editing Interface allowing the professor to modify general course details (e.g., description, language, public/private setting).

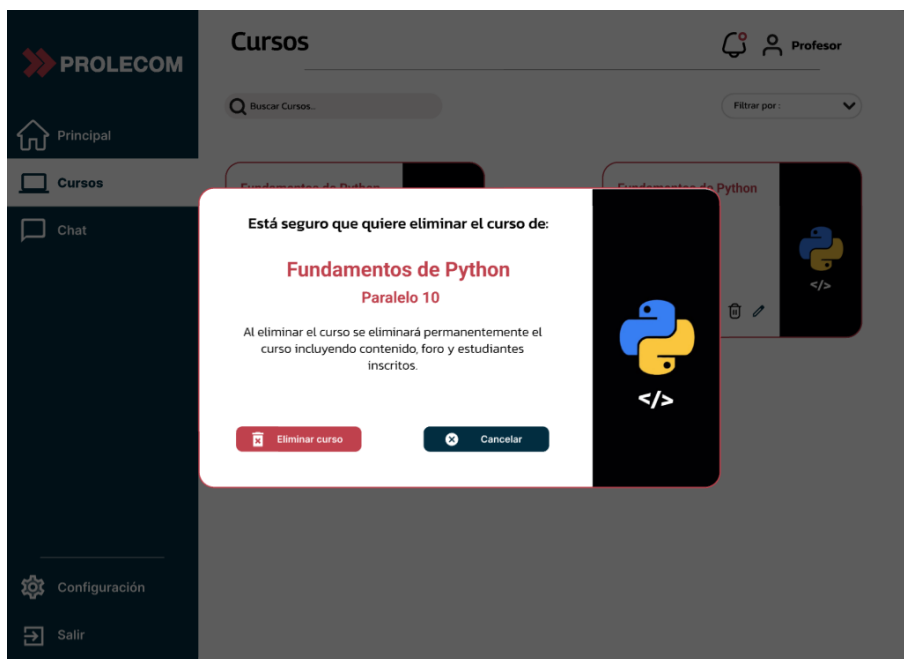

Figure 13: Course Deletion Confirmation view (with required two-step confirmation for security).

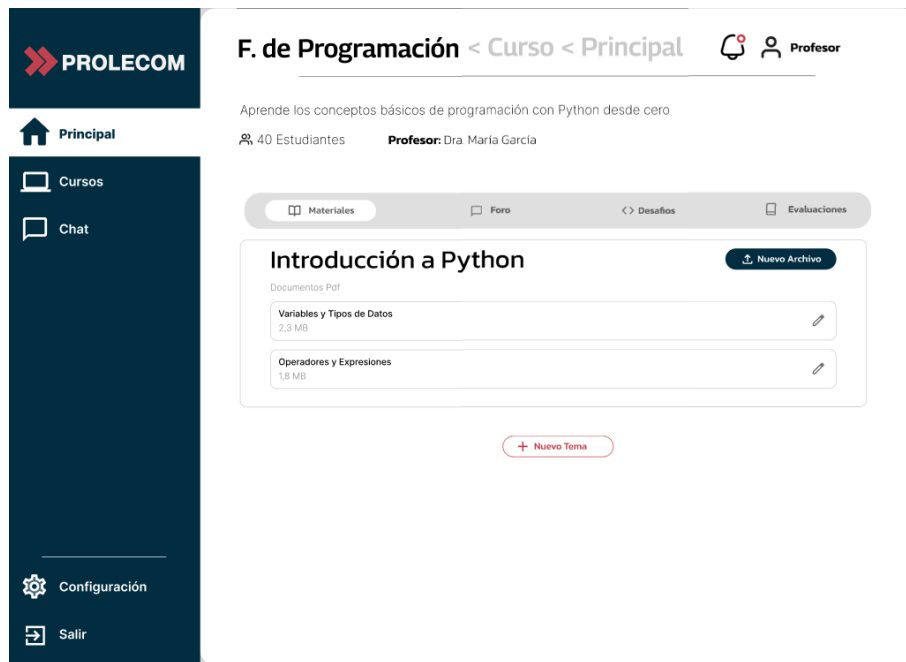

Figure 14: Specific Course Management Dashboard providing access to content tools, challenge bank, and student analytics.

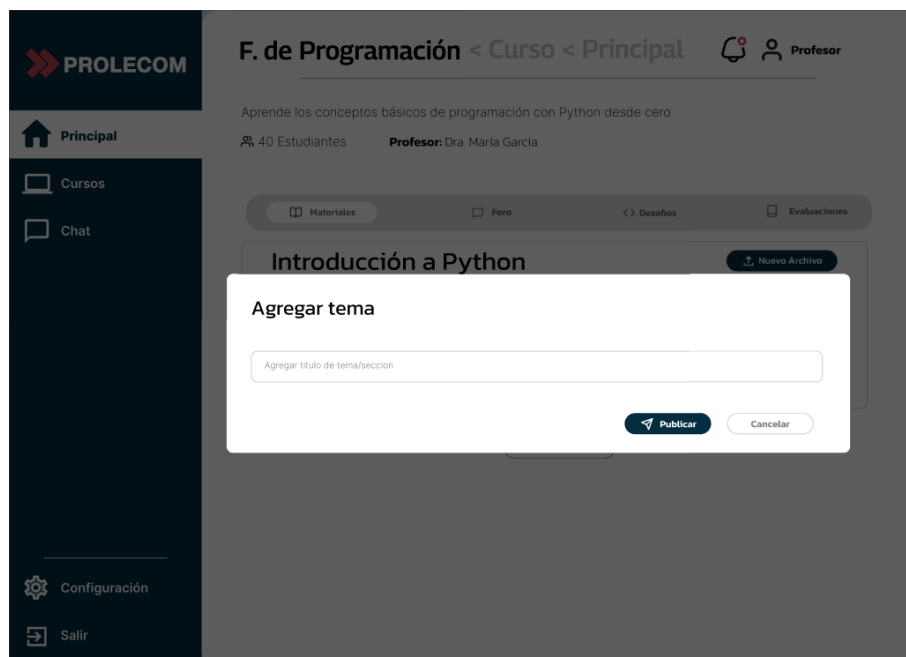

Figure 15: Adding New Topics/Modules interface for structuring the course curriculum hierarchy.

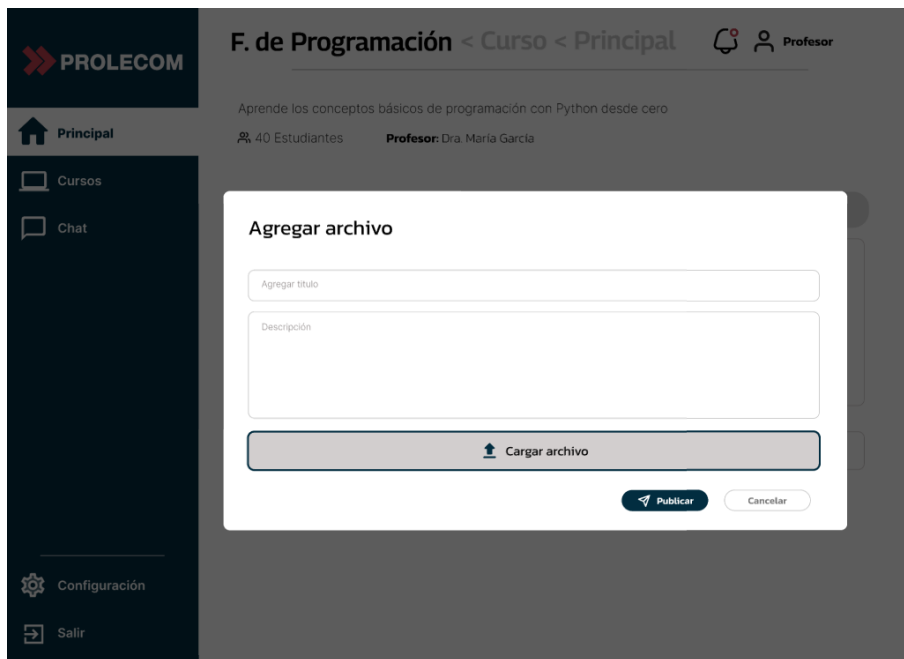

Figure 16: Uploading Course Material Interface supporting the addition of PDFs and video links, categorized by topic.

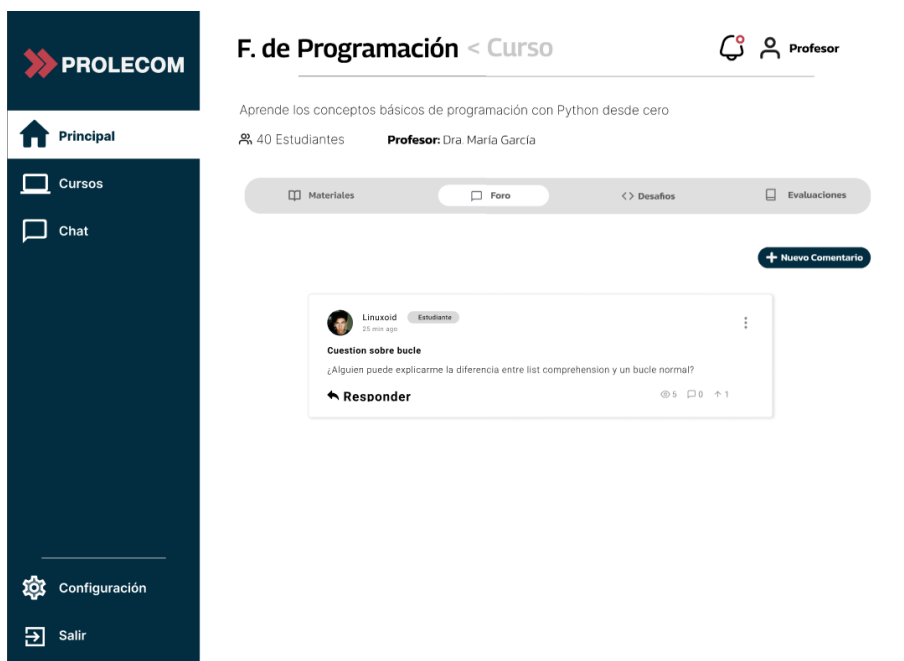

Figure 17: Course Q&A Forum view, highlighting the Professor's ability to validate and moderate answers.

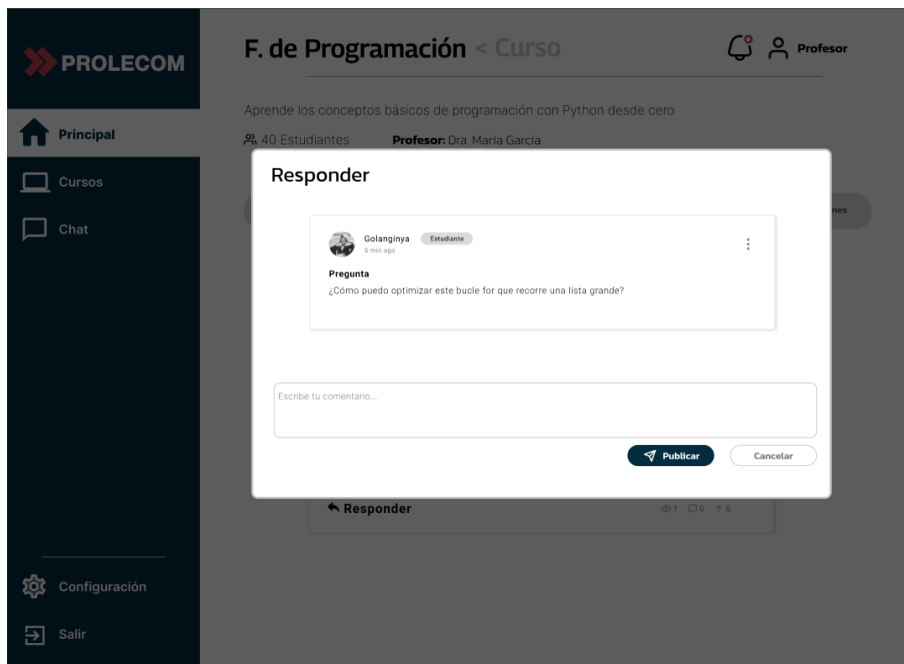

Figure 18: Replying to Student Questions interface, showing the Professor's distinguished response badge.

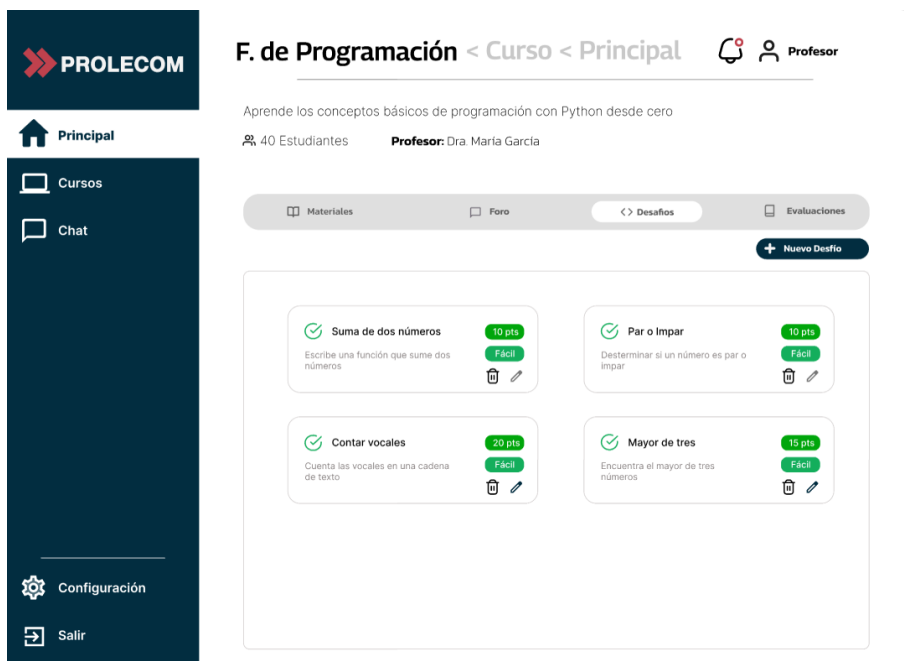

Figure 19: Course Challenge Management Bank showing a list of existing exercises with associated difficulty and creation status.

PROLECOM

F. de Programación < Curso < Principal

Profesor: Dra. María García

40 Estudiantes

[Volver a Desafíos](#)

Título: Invertir cadena
 Descripción: Escribe una función que reciba una cadena de texto y la devuelva invertida.

Ejemplo de Entrada: "Hola Mundo"
Ejemplo de Salida: "odnuM aloH"

Editor de Código:
 # Escribe tu código aquí

[Publicar](#) [Cancelar](#)

Figure 20: New Challenge Creation Form detailing the required inputs (Problem Statement, Difficulty, Test Cases/Expected Output).

Está seguro que quiere eliminar el desafío de:

Mayor de 3
 Encuentra el mayor de 3 números

Al eliminar el desafío se eliminará permanentemente del curso incluyendo contenido, foro y participación de estudiantes que lo realizaron.

[Eliminar desafío](#) [Cancelar](#)

Figure 21: Challenge Deletion Confirmation interface (with a warning message about permanent removal).

3 Teaching Assitant

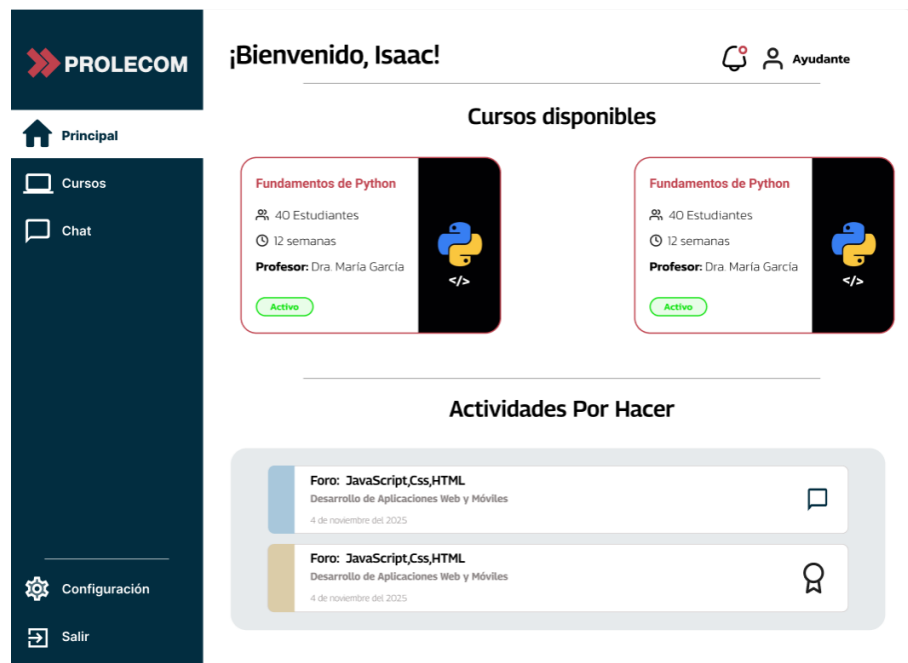

Figure 22: Main Teaching Assistant Dashboard displaying assigned student groups, current course alerts, and mentorship status.

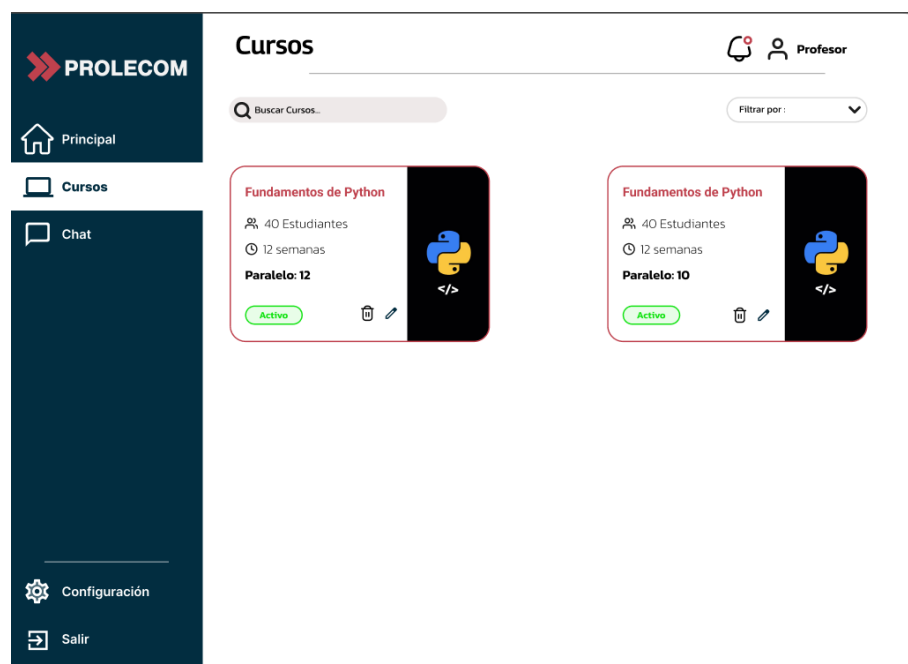

Figure 23: Active Courses View listing the courses where the TA is assigned, with quick links to content and student analytics.

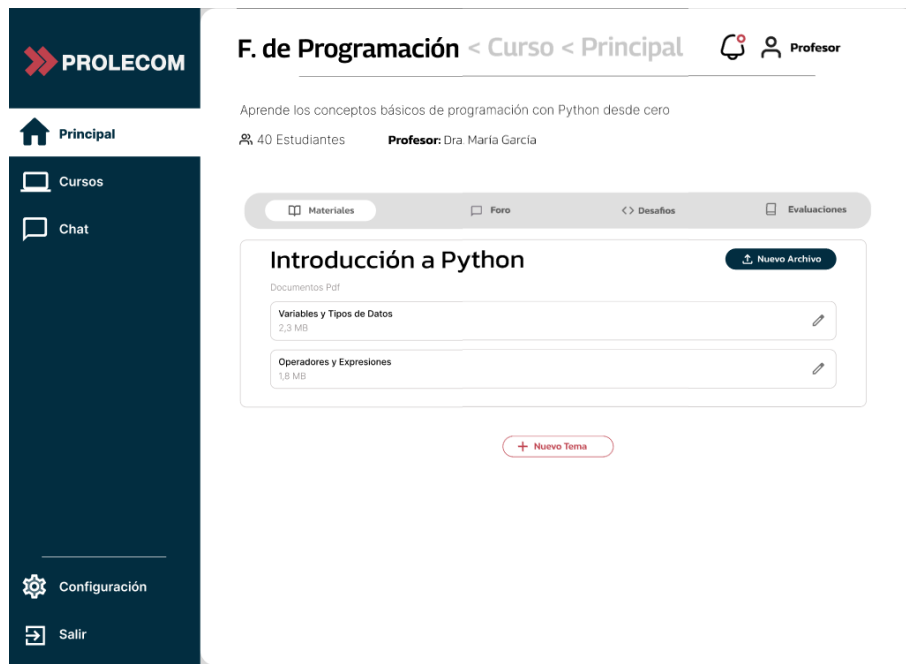

Figure 24: Specific Course Mentorship Dashboard showing the course outline, student performance summary, and quick access to Q&A.

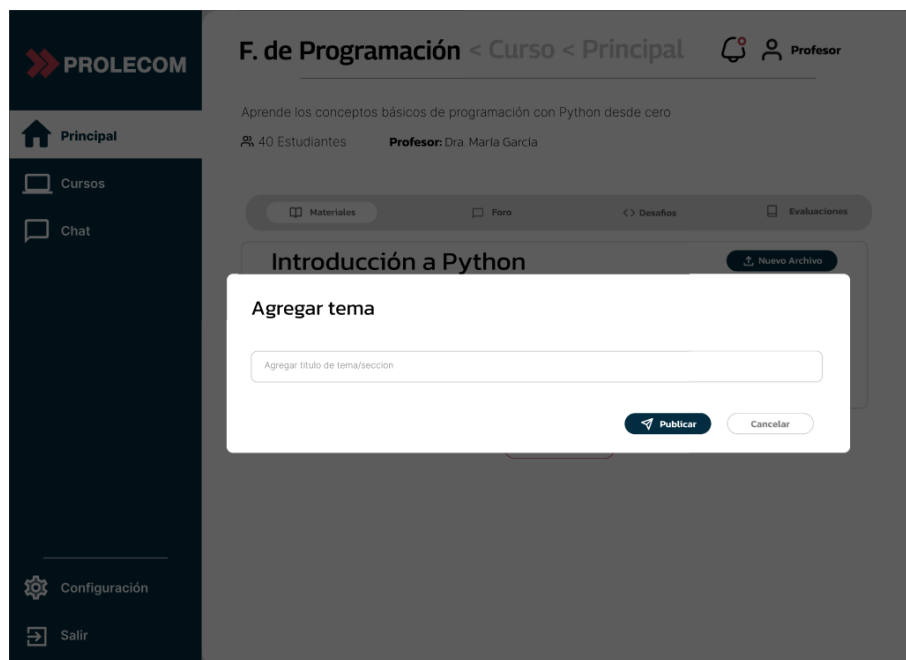

Figure 25: Adding New Topics/Modules Interface for structuring supplementary material within the course content.

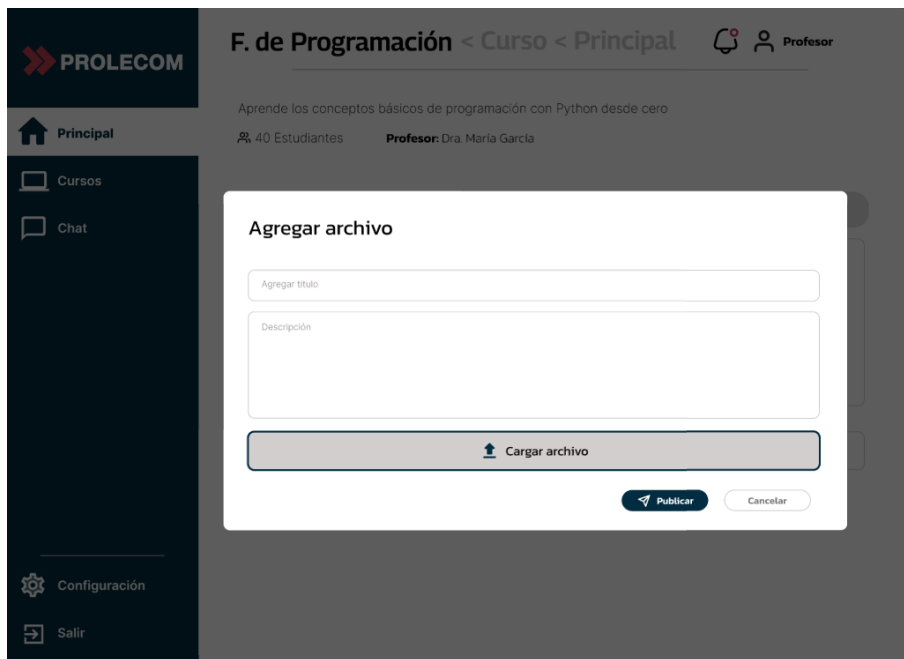

Figure 26: Uploading Supplementary Material Interface allowing the TA to add resources (PDFs/links) for their assigned courses.

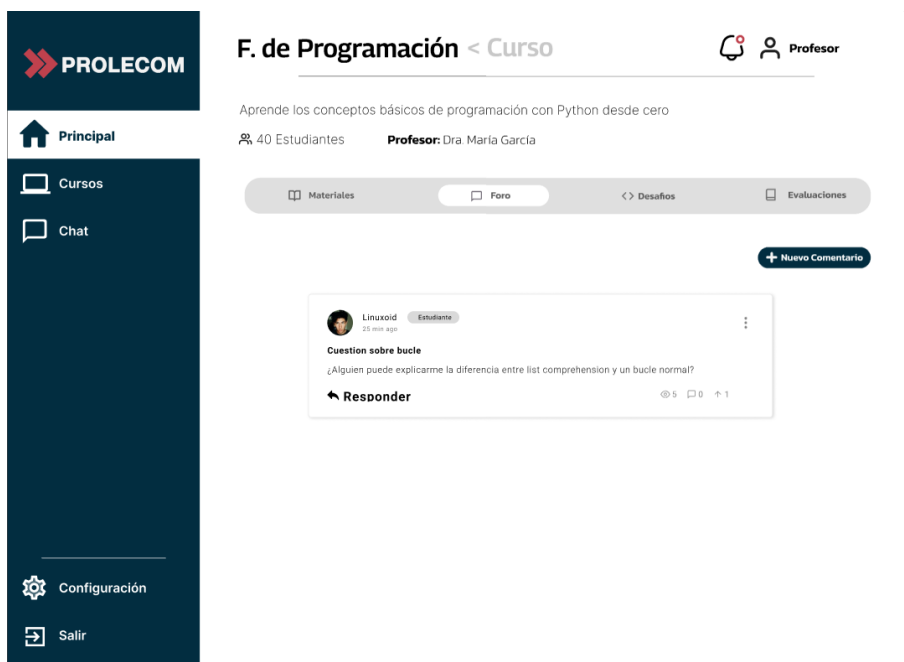

Figure 27: Course Q&A Forum View highlighting unresolved questions for priority attention and the TA's authority to validate answers.

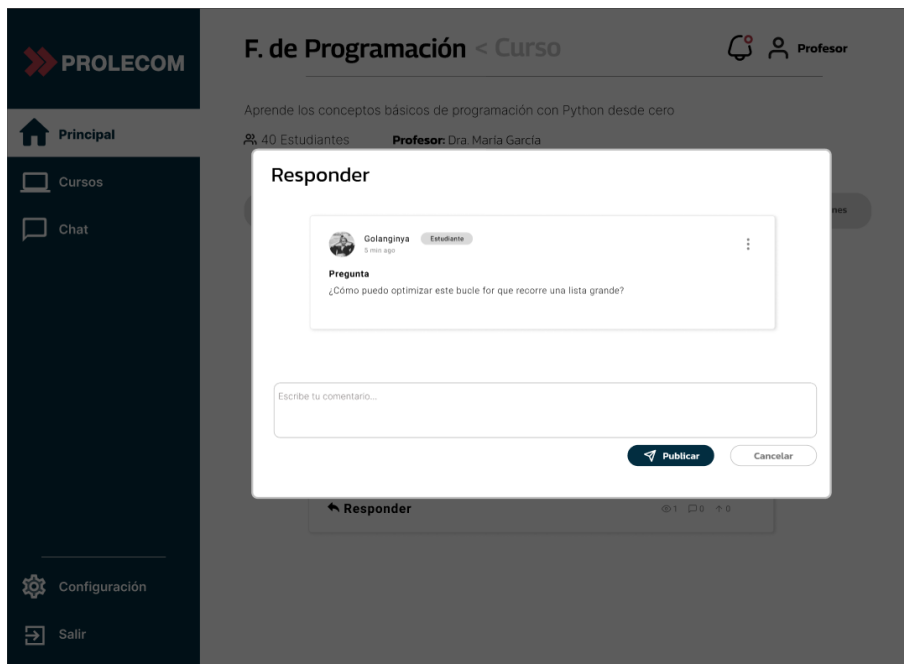

Figure 28: Replying to Student Questions interface, showing the TA's badge and the option to tag helpful responses.

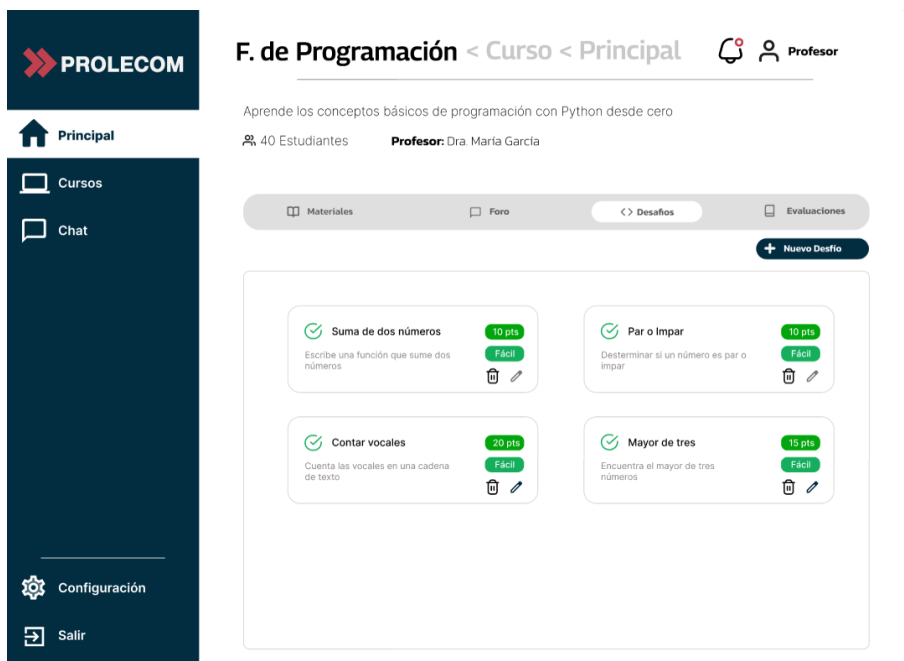

Figure 29: Challenge Review Bank listing all current programming exercises and displaying student submission status.

The screenshot shows the 'F. de Programación' course page. The left sidebar contains navigation links: Principal, Cursos, Chat, Configuración, and Salir. The main content area is titled 'F. de Programación < Curso < Principal' and includes a bell icon, a user icon, and the role 'Profesor'. Below the title, it says 'Aprende los conceptos básicos de programación con Python desde cero' and '40 Estudiantes'. The 'Profesor' is listed as 'Dra. María García'. A button 'Volver a Desafíos' is at the top left of the challenge form.

The challenge form is titled 'Título: Invertir cadena'. The description is 'Describe una función que reciba una cadena de texto y la devuelva invertida.' It includes an 'Ejemplo de Entrada' with the text '¡Hola Mundo!' and an 'Ejemplo de Salida' with the text '¡odnuM alóH!'. Below these is a code editor with the placeholder text '# Escribe tu código aquí'. At the bottom of the form are two buttons: 'Publicar' and 'Cancelar'.

Figure 30: New Challenge Creation Form used to design supplementary programming exercises, automatically flagged for Professor review.

4 Support

The screenshot shows the 'Principal' support dashboard. The left sidebar contains navigation links: Principal, Gestionar, Asignar, Monitoreo, Configuración, and Salir. The main content area is titled 'Principal' and includes a bell icon, a user icon, and the role 'Soporte'. Below the title, it says '¡Bienvenida, Juan!' and 'Gestiona usuarios, roles y mantén el sistema funcionando'.

The dashboard is divided into two main sections. The left section is titled 'Usuarios Recientes' and shows a list of recent users with their roles and last login times. The right section is titled 'Tickets de Soporte' and shows a list of support tickets with their status and last update times.

Usuario	Rol	Estado	Última Actividad	Acción
Ana Torres	student	Activo	Hace 2 horas	Editar
Pedro Silva	student	Activo	Hace 1 día	Editar
Laura Mendoza	assistant	Pendiente	Hace 2 días	Editar

Ticket	Usuario	Rol	Estado	Última Actividad	Acción
No puedo acceder al curso	Carlos Ruiz	student	Alta	Hace 45 min	Resolver
Cambio de rol solicitado	Sofía Castro	assistant	Medio	Hace 3 horas	Resolver
Error al subir material	Diego Vargas	student	Baja	Hace 1 día	Resolver

Figure 31: Main Support Dashboard showing active tickets, recent user login issues, and quick access to user management tools.

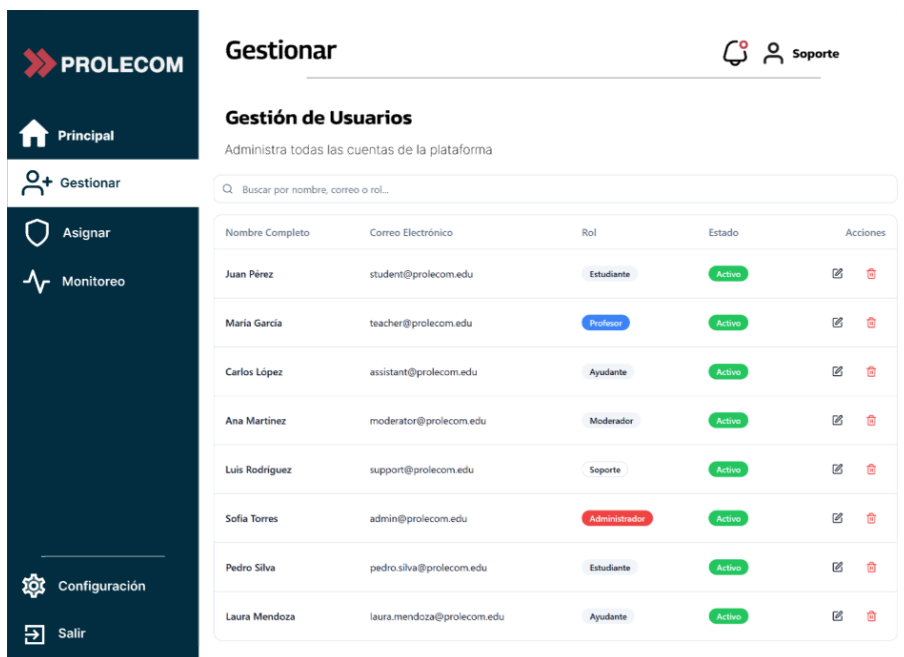

Figure 32: User Management Panel displaying a searchable/filterable list of all platform users for quick lookup and action.

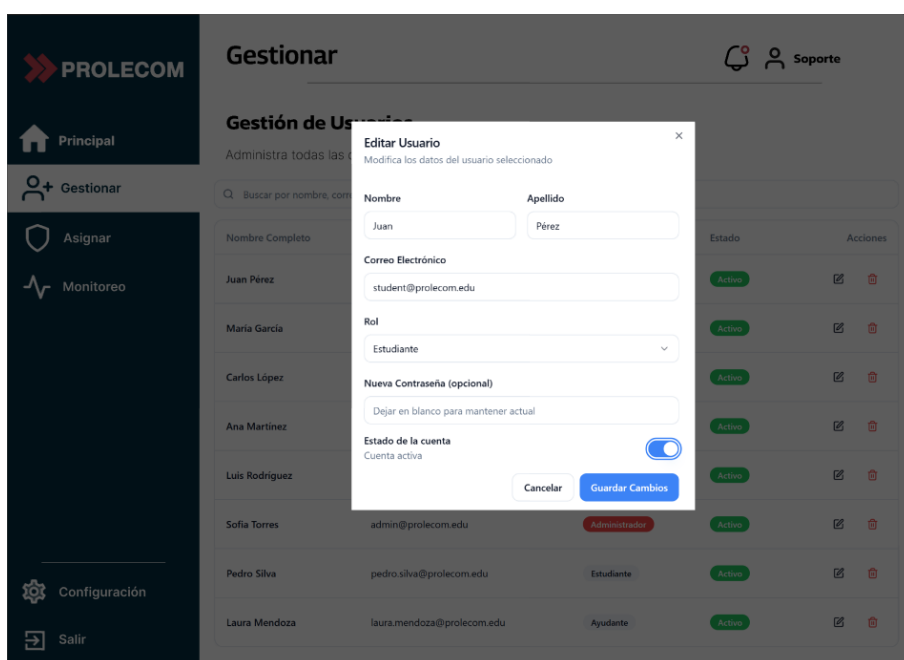

Figure 33: Edit User Profile Interface allowing Support Staff to modify contact information and reset passwords.

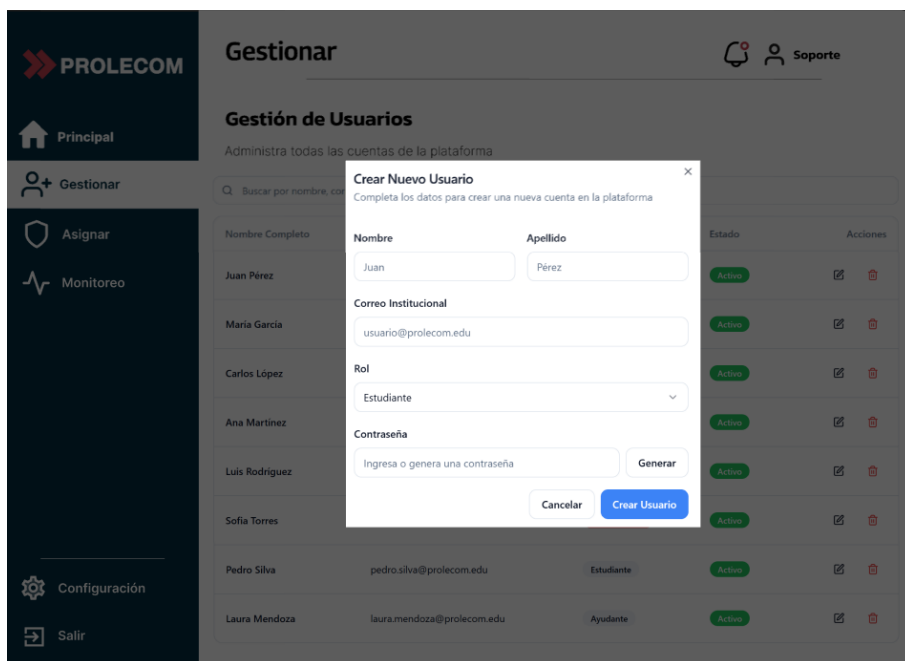

Figure 34: Create New User Account Form for manual registration of specialized accounts (e.g., initial test profiles).

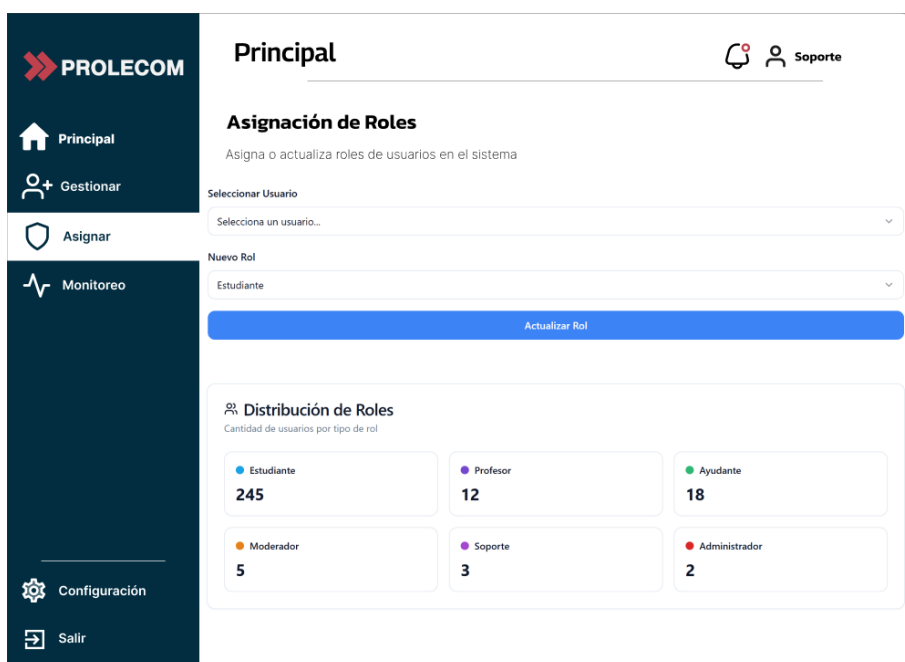

Figure 35: Role Assignment Panel where Support Staff can view and update the user's role (Student, Professor, Moderator, etc.).

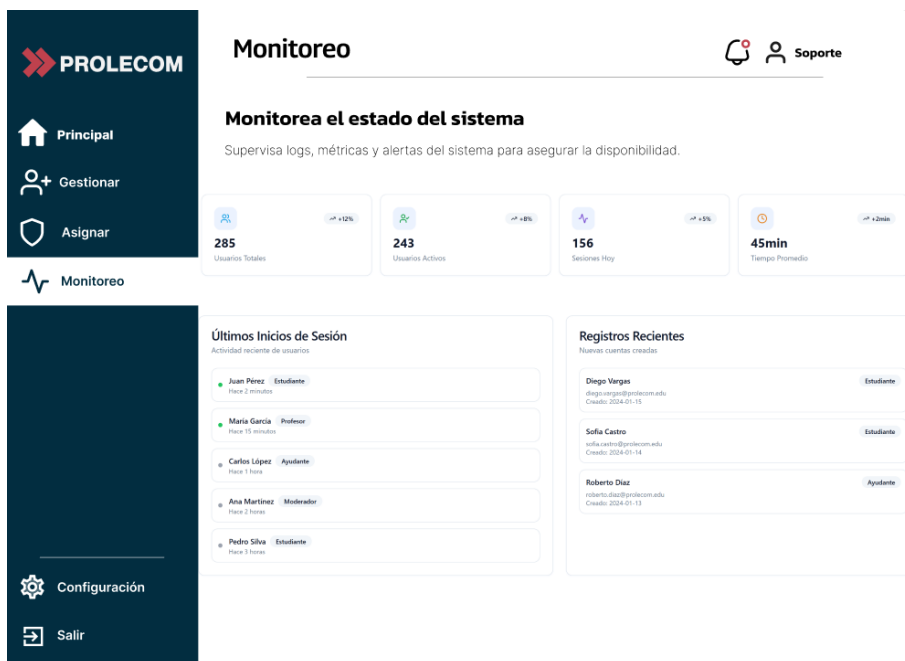

Figure 36: System Activity Monitoring Log showing a real-time stream of low-level system events for troubleshooting purposes.

5 Administrator

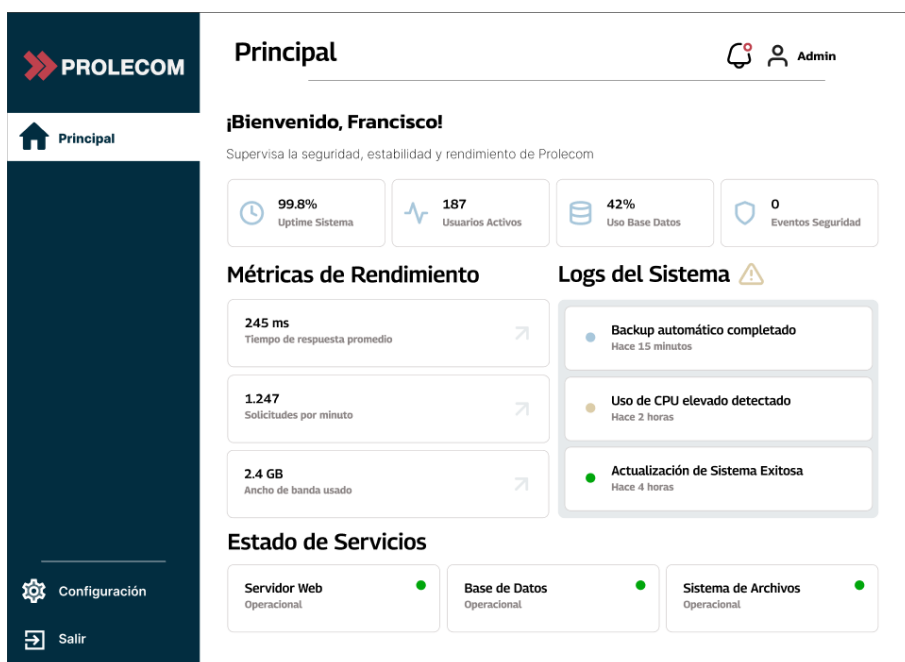

Figure 37: Real-Time System Activity Dashboard displaying high-level metrics (e.g., new user registrations, course creation count, server status) for platform oversight.
